

Business Proposal

For Bulk SMS – Transactional & Promotional

Service Overview:

Messageskaro.com offers a complete range of messaging services across the Globe, offering optimization and high quality of SMS routing to mobile service providers such as, Mobile Content Providers, SMS Aggregators, Financial Institutions, Government Sector and Resellers.

Messageskaro.com Bulk SMS service provides the facility to benefit from Volume Related Discounts on SMS messages. If your aim is to advertise, inform, promote messages or get in touch with your customers, bulk SMS delivers a timely and cost efficient mass-market communication tool.

This service is based on connecting the subscribers to our SMSC via our portal or through an HTTP or SMPP connectivity, to enable them sending a large number of SMS at a high speed.

After Purchase, the Account Manager will make sure to maintain an efficient flow of communication and provide you with the most advanced technologies. Moreover, the sales department will introduce you to the technical support team, available 24/7 to establish the connection and assist you whenever needed.

An online daily usage report is accessible to the customers in order to monitor the account's activities.

Sending Bulk SMS is subject to a number of regulations & operators guidelines.

Our Features:

- 1: Delivery Base: We deal with 100% delivery basis.
- 2: Unlimited Sender IDs: We provide unlimited and dedicated Sender Ids.
- 3: Message: We support all types of messages i.e. Flash, WAP push, Long Messages, etc.
- 4: Language: Anyone can avail the benefit of send smash in any language.
